

# Robot Extravaganza

Saturday May 6th, 2017

## Brace yourself the robots are coming

Watch out the robots are coming to take you to and from school, your teacher is a robot, your dentist sends you home with a robot toothbrush, your dog is walked by a robot.....

This years theme is **Robotic Technology in your Community**, show us your creativity and invent ways robots will help you, your family or society in our daily tasks! Dazzle us, surprise us and be ready to share. Create teams of K-2nd graders, 3 - 5th graders and 6-8th graders and come to Seattle Preparatory School on Saturday May 6th and share your ideas!

### THINK

Think of an idea a problem you care about

1

### DO

Design and build a solution to your problem

2

### TEST

Test and demonstrate and share your idea with others

3

## CATHOLIC SCHOOL ROBOTICS EXTRAVAGANZA

"Robotics Technology in your Community"

Saturday May 6th, 9:00AM - 11:00AM

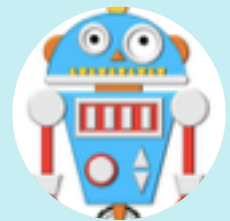

Seattle Prep Gym

Contact Willem Scholten at [wscholten@seaprep.org](mailto:wscholten@seaprep.org)

### Program Rules

Find full rules online at [seaprep.org](http://seaprep.org) in early February.

### Programming

Use VEX IQ, EV3, Arduino or other robot platform, and program your inventions

### Register

Team/school registration opens in February
